

Lab 00: Getting started

Add name

2026-08-24

```
library(tidyverse)
bikeshare <- read_csv("data/bikeshare-2012.csv")

ggplot(data = bikeshare, aes(x = temperature, y = count)) +
  geom_point() +
  labs(x = "Temperature (in Celsius)",
       y = "Bike rentals",
       title = "Daily bike rentals versus temperature",
       subtitle = "Capital Bikeshare 2012")
```
